# Auditor's report

# To the Shareholders of Middle East Glass Manufacturing Company S.A.E.

# Report on the consolidated financial statements

We have audited the accompanying consolidated financial statements of Middle East Glass Manufacturing Company S.A.E. (the "Company") and its subsidiaries (together the "Group") which comprise the consolidated statement of financial position as of 31 December 2024 and the consolidated statements of profit or loss, comprehensive income, changes in equity and cash flows for the financial year then ended, and a summary of significant accounting policies and other notes.

# Management's responsibility for the consolidated financial statements

These consolidated financial statements are the responsibility of the Group's management. Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Egyptian Accounting Standards and in light of the prevailing Egyptian laws. Management responsibility includes, designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error. Management responsibility also includes selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

# Auditor's responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Egyptian Standards on Auditing and in light of the prevailing Egyptian laws. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance that the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Group's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control. An audit also includes evaluating the appropriateness of accounting policies and the accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on these consolidated financial statements.

# Auditor's report (continued) Page 2

# Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Middle East Glass Manufacturing Company S.A.E. and its subsidiaries as of 31 December 2024, and their financial performance and their cash flows for the financial year then ended in accordance with Egyptian Accounting Standards and in light of the related Egyptian laws and regulations.

#### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

#### 1. General information

Middle East Glass Manufacturing Company (MEG) was established in 1979 as an Egyptian joint stock Company under the provisions of Law No. 43 of 1974 as amended by Law No. 230 of 1989 as amended by Law No. 8 of 1997 and is registered in the commercial register under number 193770 Cairo. The address of the Company's registered office is Nasr City, 6 Mokhayam El-Daem Street 6thDistrict, Industrial Zone, Cairo – Arab Republic of Egypt.

The Company is listed on the Egyptian Stock Exchange (EGX).

The Company and its subsidiaries together comprise "the Group."

The Group's main activity is production of all types of Glass containers, The Group may engage in the sale and export of its products in Glass containers and carry out all direct industrial or commercial supplemental activities that are licensed for this activity. The Group may have Authority or participate in any way with bodies that carry out similar activities or cooperate with them in their purpose in Egypt or abroad. It may also be followed by approval from General Authority of Investment.

The ultimate parent of the Group is MENA Glass Holdings Limited with 93.01% (31 December 2023: 52.9%) ownership. The Group is ultimately controlled by Mr. Abdul Galil Besher.

These consolidated financial statements were approved for issuance by the Board of Directors of the Company on 27 February 2025.

#### Percentage of ownership in subsidiaries

The group consists of the companies below as of 31 December 2024 and 31 December 2023 unless otherwise was noted, and the percentage of the Group's share of the companies is direct ownership of the ordinary shares of the paid-up capital.

Subsidiaries	Location	Functional currency	interest held by the group 2024	interest held by the group 2023	Activity
Middle East Glass Containers Sadat	Egypt	Egyptian Poun		99.99992%	Manufacturing Glass Containers
MEG Misr for Glass MEG (S.A.E)	Egypt	Egyptian Pound		99.99993%	Sale & distribution of glass.
Misr for Glass Manufacturing S.A.E.	Egypt	Egyptian Poun		Owned 99.9997% by MEG Misr for Glass MEG (S.A.E)	Manufacturing all kinds of Glass Containers and the acquisition of other entities that operate in the same field

#### **Operating Environment of the Group**

The Monetary Policy Committee of the Central Bank of Egypt decided to raise the deposit and lending interest rates by 200 basis points on 1 February 2024, then by 600 basis points on 6 March 2024. The credit and discount rates were also raised by 600 basis points on 6 March 2024.

Note No. 32 on financial risks shows the sensitivity of profits or losses and other components of equity to changes in interest rates and foreign currencies in light of the instruments held by the Group at the end of the financial period. The foreign exchange rate of USD against EGP has changed from 30.89 as at 31 December 2023 to 50.84 as at 31 December 2024.

# 2. Basis of preparation

# i. Statement of Compliance

The consolidated financial statements have been prepared in accordance with Egyptian Accounting Standards and applicable laws and regulations

### ii. Basis of measurement

The consolidated financial statements have been prepared on a historical cost basis, except for the employees' end of service benefit which is recognized at the present value of the defined benefit obligation using the Projected Unit Credit Method.

#### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

# 2. Basis of preparation (continued)

# iii. New releases and amendments to the Egyptian Accounting Standards adopted

The Minister of Investment issued Decision No. 636 for year 2024 on 3 March 2024, amending some provisions of Egyptian accounting standards, which are summarized as follows:

- A) Egyptian Accounting Standard No. (13) "Effect of change in the currency exchange rate"
- B) Egyptian Accounting Standard No. (17) "Separate financial statements "
- C) Egyptian Accounting Standard No. (34) "Investment in property"

The Group determined that these amendments do not have a material impact on the Group's financial statements except for effect of applying EAS (13) as illustrated below.

#### iv. Effect of applying Egyptian Accounting Standard No. (13)

On March 3, 2024, the Prime Minister has issued decree No. 636, amending the Egyptian Accounting Standard No.13 (EAS 13) "the effect of changes in foreign currency exchange rates", paragraph 57A, effective from 1 January 2024.

The Group has applied the amendment in paragraph EAS13.57A and made an assessment to determine whether there is lack of exchangeability of foreign currencies against the Egyptian Pound. Below is summary of the outcome of that assessment.

#### A) Lack of Exchangeability assessment

The Group assessed that there is no lack of exchangeability for monetary assets denominated in foreign currencies as at 1 January 2024, the date of application of EAS 13 revised. This assessment was made on the premise that assets denominated in foreign currencies may be exchanged at the bank at any point of time without any difficulty.

The Group management is confident that their forecasted cash flows will prevent a negative foreign currency position. The management believe that the Group's assets will sufficiently cover liabilities in foreign currency from exporting operations and the foreign currency generated from these activities. Furthermore, the Group has not experienced any default incidents related to foreign currency liabilities in the past when they came due.

The Group also assessed that the lack of exchangeability for liabilities denominated in foreign currencies, and believes that the Group's expected future cash inflows in foreign currency would be sufficient to settle the Group's liabilities denominated in foreign currencies, however as at 1 January 2024, total liabilities denominated in foreign currencies exceeded the available monetary assets in foreign currencies, and according to the revised standard EAS 13 "Effects of changes in foreign exchange rates" these assets and liabilities have been revalued at 1 January 2024 using the first rate that was available to the Group (USD 1=EGP 47.22, GBP 1 = 59.61 and EUR 1= EGP 50.97) to source foreign currency subsequent to the application date of the revised standard during March 2024, as summarized below.

#### B) Currency Position

Below is summary of monetary assets and liabilities denominated in USD, GBP and EUR outstanding from 1 January 2024 till 31 March 2024:

Statement of financial positions line item	Outstanding balances from 1 January 2024 USD	Outstanding balances from 1 January 2024 GBP	Outstanding balances from 1 January 2024 EUR
Total assets in foreign currency			
Cash and cash equivalents	19,532,000	-	-
Account receivables	703,471	-	=
Total	20,235,471		
Total liabilities in foreign currency			
Loans	(66,666,669)	-	=
Trade payables	(1,920,683)	(20,809)	(283,193)
Total	(68,587,352)	(20,809)	(283,193)
Net liabilities position	(48,351,881)	(20,809)	(283,193)

#### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

#### 2. Basis of preparation (continued)

# iv. Effect of applying Egyptian Accounting Standard No. (13) (continued)

#### C) Monetary effect of applying EAS 13 Revised

The following table represent the effect of EAS 13 revised on opening retained earnings at 1 January 2024:

Description	Foreign currency	Balance in foreign currency	Difference of using the estimated exchange rate on profit or (loss) EGP	Deferred income tax on profit or (loss) EGP	Net Effect on retained earnings Increase / (decrease) EGP
Net liabilities	USD GBP EUR	(48,351,881) (20,809) (283,193)	(789,586,211) (422,009) (4,777,464)	, ,	(611,929,313) (327,057) (3,702,535)
Net		. , ,	(794,785,684)	178,826,779	(615,958,905)

# v. New releases and amendments to the Egyptian Accounting Standards to be adopted

EAS 50 – Insurance contracts is effective for annual financial periods starting on or after July 1, 2024, the group didn't early adopt the standard as of 31 December 2024. The group initial assessment is that no impact is expected on the consolidated financial position of the group as they don't have insurance contracts that fall into the scope of the standard.

EAS 51— "Financial Statements under Hyperinflationary Economies". The date of application of the standard will be determined later in accordance with the requirements of the standard. There is no impact on the group for this standard during the year ended 31 December 2024.

No new other standards and interpretations are to be adopted by the group not yet adopted.

#### vi. Going Concern

These consolidated financial statements have been prepared on the going concern basis.

# vii. Classification of assets and liabilities

The Group presents its assets and liabilities in the statement of financial position based on current / non-current classification. An asset is classified as current when it is:

- \* Expected to be realised or intended to be sold or used in normal operating course;
- Held primarily for trading.
- \* Expected to be realised within 12 months after the end of the reporting period, or
- \* Cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

The liability is classified as current when:

- \* It is expected to be settled in normal operating course;
- \* Held primarily for trading.
- \* Expected to be realised within 12 months after the end of the reporting period, or
- \* The entity does not have an unconditional right to defer the settlement of the liability for at least twelve months after the end of the reporting period.

The Group classifies all other liabilities as non-current. Deferred tax assets and liabilities are classified as non-current.

#### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

# 2. Basis of preparation (continued)

The preparation of the consolidated financial statements in conformity with EASs requires the use of certain critical accounting estimates and assumptions. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. Note (31) describes the significant accounting estimations and assumptions of these consolidated financial statements, as well as significant judgments used by the Group's management when applying the Group's accounting policies.

EAS requires the reference to the International Financial Reporting Standards (IFRS) when there is no EAS, or legal requirements that explain the treatment of specific balances and transactions.

#### 3. Segment reporting

All of the Group's subsidiaries have similar nature of products, similar production processes, types of customers and operates in the same regulatory environment. The Board of Directors assesses all the entities as a single reportable segment. Therefore, all the subsidiaries have been aggregated and organized into one segment which is wholly related to the manufacturing and sale of glass containers and no further disclosure are required.

#### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

# 4. Revenue from contracts with customers

	2024	2023
Local sales Export sales Total	2,603,349,530 2,827,249,969 <b>5,430,599,499</b>	2,029,261,316 1,984,001,295 <b>4,013,262,611</b>
Timing of revenue recognition is as follows:		
(In Egyptian Pounds)	2024	2023
At a point in time	1,226,612,798	971,940,675
Over time	4,203,986,701	3,041,321,936
Total revenue from contracts with customers	5,430,599,499	4,013,262,611

Total amount invoiced and delivered to customers for all types of revenue during the year amounted to EGP 5,253,593,915 (31 December 2023: EGP 3,966,012,527)

# Assets and liabilities arising from contracts with customers.

The Group has recognised the following assets and liabilities arising from contracts with customers:

In (Egyptian Pounds)	2024	2023
Current contract assets from contracts with customers*	407,195,504	230,189,920
Total current contract assets	407,195,504	230,189,920
Contract liabilities – advances from customers (Note 22)**	93,839,070	95.717.775
Total current contract liabilities	93,839,070	95,717,775

The movement of contract assets balance from contracts with customers during the year represented in the following: -

In (Egyptian Pounds)	2024	2023
*Contract assets as of 1 January Add: Contract assets recognized during the year According to EAS 48	230,189,920	182,939,835
(overtime)	4,203,986,701	3,041,321,936
Less: Contract assets delivered during the year According to EAS 48 (overtime)	(4,026,981,117)	(2,994,071,852)
Contract assets as of 31 December	407,195,504	230,189,920

The movement of contract liabilities balance – Advances from customers during the year represented in the following: -

	2024	2023
**Contract liabilities as of 1 January	95,717,775	121,440,784
Deduct: Revenue recognised during the year in relation to opening balance of		
contract liabilities	(95,717,775)	(121,440,784)
Add: Advance from customers during the year	93,839,070	95,717,775
Contract liabilities as of 31 December	93,839,070	95,717,775

- A. The increase in Contract Assets is mainly due to the increase in finished goods which are customized for certain customers but not invoiced or delivered to those customers.
- B. The decrease in Contract liabilities is mainly due to the decrease in the advance payments made by the customers by the end of the year.

The Group applies the EAS 47 simplified approach to measure expected credit losses which uses a lifetime expected loss allowance for contract assets. To measure the expected credit losses, contract assets have been grouped based on shared credit risk characteristics and the days outstanding as unbilled. The contract assets relate to unbilled work in progress and have substantially similar risk characteristics as the trade receivables for the same types of contracts. However, the longer the contract asset is outstanding the higher is the increased risk that it will not be collected.

# Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

# 4. Revenue from contracts with customers (continued)

The expected loss rates are based on the past data collected over a period of 36 months (31 December 2023: 60 months) prior to the end of the reporting period and the corresponding historical losses experienced within this period. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables. The Group has identified the gross domestic product of the Egypt to be the most relevant indicators, and accordingly adjusts the historical loss rates based on expected changes in these variables.

All the outstanding contract assets are less than 76 days. The impairment loss identified on these contract assets was immaterial.

# 5. Expenses by function

	2024	2023
Cost of sales	3,013,926,973	2,328,658,716
Selling and marketing expenses	156,029,665	104,511,952

	2024	2023
Net profit before tax	1,440,730,651	799,299,127
Income tax according to the local tax rate of 22.5%	324,164,396	179,842,304
Adjustments		
Tax effect of non-deductible expenses	46,135,330	21,414,420
Actual income tax according to profit or loss statement	370,299,726	201,256,724
Effective tax rate	26%	25%

# Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

# 11. Earnings per share

# A. Consolidated basic and diluted earnings per share

Earnings per share as of December 31, 2024, is calculated based on the Group's share in earnings for the year using the weighted average number of outstanding shares during the year as follows:

	2024	2023
Net profit for the year	1,070,430,925	598,042,403
Less: employees profit share	(49,250,720)	(45,220,687)
Net profit available to the shareholders	1,021,180,205	552,821,716
Weighted average number of issued and paid shares	62,627,993	62,627,993
Earnings per share	16.31	8.83
Earnings per share before the effect of applying EAS 13	6.47	8.83

# B. Separate basic and diluted earnings per share

Earnings / (loss) per share as at December 31, 2024, is calculated based on the Parent Company's share in earnings / (loss) for the year according to the separate financial statements using the weighted average number of outstanding shares during the year as follows:

Net profit for the year 170,458,070 21,96	66,708
Less: employees profit share (23,200,057) (21,78	84,672)
Net profit available to the shareholders 147,258,013 18	82,036
Weighted average number of issued and paid shares 62,627,993 62,627	27,993
Earnings per share 2.35	0.003
Earnings per share before the effect of applying EAS 13 (0.09)	0.003

# 12. Earnings before interest, taxes, depreciation and amortization ("EBITDA")

Adjusted EBITDA is not a defined performance measure under EAS. The Group's definition of adjusted EBITDA may not be comparable with similarly titled performance measures and disclosures by other entities.

The information disclosed in the table below represents the earnings before interest, taxes, depreciation & amortization according to the internal reports prepared by the group's management, and for the year ended 31 December 2024 and 31 December 2023 was as follows:

	2024	2023
Net profit after tax	1,070,430,925	598,042,403
Net interest expense/ income	398,435,714	318,326,651
Tax expense	370,299,726	201,256,724
Depreciation & amortization	294,633,779	230,743,866
Exceptional items, net	(367,000)	137,984,196
Non-cash income	(121,184)	2,208,399
Non-cash expenses	303,622	(260,846)
Net unrealised losses from foreign currency rate differences	488,997,159	417,064,647
Other deductions	-	(531,549)
Adjusted EBITDA	2,622,612,741	1,904,834,491

# Notes to the consolidated financial statements - For the year ended 31 December 2024

The Cost of fully amortized intangible assets and still in use amounted to EGP 73,562,032 as of 31 December 2024 (2023-73,562,032)

#### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

# 14. Intangible assets (continued)

#### i. Goodwill

Goodwill arose on the acquisition by the Company of Middle East Glass Containers Sadat in 2014 and Misr for Glass Manufacturing S.A.E. in 2016. Goodwill is related primarily to the value of the synergies of the combined business operations, new valuable customer relationships, growth opportunities and skilled management and labour. Goodwill is not tax deductible for tax purpose.

Goodwill is allocated to Middle East Glass Containers Sadat and Misr for Glass Manufacturing S.A.E. each being the cash generating units (CGU) at the lowest level at which management monitors its related goodwill. Goodwill arises as follows:

	2024	2023
Middle East Glass Containers Sadat	173,589,339	173,589,339
Misr for Glass Manufacturing S.A.E.	85,025,649	85,025,649
Goodwill	258,614,988	258,614,988

#### ii. Recoverable amount of Goodwill

The Group performs an impairment test for goodwill on an annual basis. The recoverable amount is determined based on calculating the value in-use which requires the use of assumptions, and the value-in-use calculation is based on projected cash flows according to 5-year business plan approved by management.

The cash flows beyond the 5 years is extrapolated using the growth rates specified below which are consistent with the forecast related to the industry in which the cash generating units operate.

2024

2022

The Group used the following assumptions in performing goodwill impairment test on 31 December 2024:

	2024	2023
Sales volume (% annual growth rate)	2%	3%
Sales price (% annual growth rate)	4%	2%
Other operating costs	121,000,000	134,000,000
Average gross margin %	43%	42%
Pre-tax discount rate	26%	23.7%
Long term growth rate	5%	5%

Management has determined the value assigned to each of the above key assumption as follows:

Assumption	Approach used
Sales volume	Average annual growth rate over the five-year forecast period; based on past
	performance and management's expectations of market development
Sales price	Average annual growth rate over the five-year forecast period; based on current
	industry trends and including inflation forecasts.
Average gross margin	Based on past performance and management's expectations for the future.
Other operating costs	Fixed costs of the CGUs, which do not vary significantly with sales volumes or prices.
	Management forecasts these costs based on the current structure of the business
Long-term growth rate	This is the weighted average growth rate used to extrapolate cash flows beyond the
	budget period. The rates are consistent with forecasts included in industry reports
	and macroeconomic forecast
Pre-tax discount rates	Reflect specific risks relating to the industry in which it operates.

#### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

# 14. Intangible assets (continued)

# III. Recoverable amount of Goodwill (Continued)

The Group test the impairment of goodwill depending on financial, operational, marketing position in the prior years, and its expectation for the market in the future by preparing a business plan using the growth rate and the discount rate prevailing. At the statement of financial position date, the carrying value of goodwill is less than its recoverable amount.

#### Sensitivity of recoverable amounts

The growth rate in the forecast period has been estimated to be 5%, A reduction of this growth rate by 1% does not result in an impairment, and in management's judgement/assessment, it is unlikely there will be a change of more than 1%.

The discount rate in the forecast period is estimated to be 26%, An increase of this discount rate by 2% does not result in an impairment and in management's judgement/assessment it is unlikely there will be a change of more than 5%.

The average gross profit in the forecast period is estimated to be 43% and a reduction of by 3% does not result in an impairment and in management's judgement/assessment it is unlikely there will be a change of more than 3%.

Group management has considered and assessed reasonably possible changes in other key assumptions and no instances were identified that could cause the carrying amount to exceed the recoverable amount and could result in an impairment for the goodwill allocated to CGUs.

#### Impairment charge

During the year ended 31 December 2024 and 2023, no impairment losses were recognized in the carrying amount of goodwill.

# iii. Customer relationships

Customer relationships were acquired as a part of the acquisition of Middle East Glass Containers Sadat and Misr for Glass Manufacturing S.A.E., and these relationships were valued at fair value at the date of acquisition. The customers relationships balance is amortized using the straight-line method over 5 years which represents the period of the projected cash flows of the customers relationships.

# 15. Deferred tax assets / (liabilities)

# I. Recognized deferred tax asset / (liability)

	2024	2023
Deferred tax asset	260,576,449	122,537,597
Deferred tax liabilities	(7,858,021)	(8,703,246)
	252,718,428	113,834,351

The netting of deferred tax assets and liabilities has been determined at the level of each legal entity under the group.

The details of the deferred tax assets / (liabilities) are presented as follows:

	2024	2023
Property, plant, and equipment	(136,007,290)	(109,399,245)
Retirement benefit obligation	3,201,640	2,646,259
Tax effect of unrealized foreign currency losses	393,382,099	229,290,584
Fair value surplus of acquired assets	(7,858,021)	(8,703,247)
	252,718,428	113,834,351

# Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

# 15. Deferred tax assets / (liabilities) (continued)

	Property, plant and equipment	Retirement benefit obligation	Tax Effect of unrealized foreign currency	Fair value surplus of Acquired assets	Carry forward Losses	Net
Balance at 1 January 2023	(81,638,510)	3,034,817	153,773,256	(11,490,756)	-	63,678,807

	21,961,749	21,658,126

#### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

# 17. Trade and notes receivables (continued)

Trade receivables of EGP 588,917,691 (2023: EGP 234,965,771) net of credit loss allowance are denominated in foreign currency.

The Group applies the EAS 47 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables.

To measure the expected credit losses, trade receivables are grouped based on shared credit risk characteristics and the days past due.

The expected loss rates are based on the payment profiles of customers over a period of 60 months before each balance sheet date and the corresponding historical credit losses experienced within this period. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables. The Group has identified the GDP to be the most relevant factor, and accordingly adjusts the historical loss rates based on expected changes in this factor.

The credit loss allowance for trade receivables is determined according to the provision matrix presented in the table below. The provision matrix is based on the number of days that an asset is past due.

		31 Dece	ember 2024	
In % of gross value		Gross carrying		Net carrying
(in Egyptian Pounds)	Loss Rate	amount	Lifetime ECL	value
Trade and notes receivable				
- current	0.01%	865,835,499	49,927	865,785,572
- less than 30 days overdue	0.02%	120,694,456	24,203	120,670,253

Tax authority - Sales tax on purchases	162,460,316	130,834,701
Tax authority - Withholding tax	-	5,852,085
Tax authority - Advance payment	17,935,870	10,906,566
	782,181,309	517,284,034

# 19. Cash and cash equivalents

	2024	2023
Current account at banks *	717,748,037	556,907,370
Financial assets at amortised cost **	-	226,845,187
Deposits at banks	166,755,200	240,785,000
Cash on hand	4,635,543	3,072,330
Total	889,138,780	1,027,609,887

The average rate of interest on time deposits in USD is 4.75% (31 December 2023: 6.29%).and EGP Nil (31 December 2023: 15.70%) with a maturity of less than 3 month (31 December 2023: less than 3 month).

# \*\* Financial assets at amortised cost

	2024	2023
Egyptian Treasury bills	-	226,845,187
	-	226,845,187
Treasury bills par value	2024	2023
Within 91 Days maturity	-	235,000,000
Unearned interest	-	(14,097,192)
Value of treasury bills purchased	-	220,902,808
Interest income recognized in profit or loss	-	5,942,379
Treasury bills balance	-	226,845,187

The average effective yield on treasury bills is Nil (31 December 2023: 25.6%).

The group has adopted 12-month ECL approach and based on management assessment, there will be immaterial impact on treasury bills due to the following factors:

- Bills issued and guaranteed by Government of Egypt.
- There is no history of default.
- Incorporating forward-looking information would not result in an increase in Expected default rate.

<sup>\*</sup> The current account at banks includes amount of EGP 12,617,612 (31 December 2023: 34,256,425) which represents cash margin to cover letter of credits.

# Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

# Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

# 20. Provisions

	2024	2023
Balance at beginning of the year	90,349,002	44,897,977
Additions during the year (Note 6)	50,551,055	54,120,614
Utilised during the year	(34,299,224)	(8,669,589)
Balance at end of the year	106,600,833	90,349,002

A provision is made when (i) the group has a legal or current implicit obligation towards a third party resulting from a past event, (ii) an outflow of resources will probably be necessary to extinguish the obligation, and (iii) the amount of the obligation can be reliably estimated. Provisions primarily concern obligations associated with litigation and other risks identified with regard to the Group operations. Provisions are reviewed by management annually and are adjusted to reflect the latest developments, discussions and agreements with those third parties.

All of the above provisions have been classified as current liabilities because the company does not have unconditional right to defer settlement beyond one year.

# 21. Trade and notes payable

	2024	2023
Trade payable	639,510,974	472,969,598
Notes payable	77,750,144	41,620,597
	717,261,118	514,590,195

Trade payables are unsecured and are usually paid within an average of 97 days (31 December 2023: 90 days) of recognition.

# 22. Creditors and other payables

	2024	2023
		-
Accrued expenses	493,790,177	357,956,716

Payments to tax authority	(188,334,623)	(128,500,152)
Tax differences	(505,770)	(4,160,027)
Balance at the end of the year	282,031,172	207,330,118

#### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

# 24. Bank borrowings and short-term credit facilities

		2024	2023
i.	Borrowings - current portion		
	Bank loans	847,333,341	514,833,334
	Short term credit facilities	762,378,456	569,050,145
	Total current portion	1,609,711,797	1,083,883,479
ii.	Borrowings non-current portion		
	Bank loans	1,694,666,774	1,544,500,073
	Total non-current portion	1,694,666,774	1,544,500,073
	Total	3,304,378,571	2,628,383,552

In November 2019, the Group companies signed medium term loan agreements with the International Finance Corporation ("IFC") and Commercial International Bank "CIB") for a total of \$100 Million to refinance its existing medium-term debt and to provide funding for capital expenditure to increase production capacity, including furnace rebuilds, new production equipment, printing machines, resource efficiency improvements and streamlining of the cullet processing operation. The full amount of the facilities was disbursed in 2020 and resulted in settlement of all existing medium-term bank borrowings. The outstanding loan balance as of 31 December 2024 amounts to EGP 2,542,000,115.

The loans have a seven-year tenor with 18-month grace and carries interest at 6-month SOFR plus a margin.

The loans are secured with the following security package:

- First ranking real estate mortgage over all the lands and buildings owned by the Group with the carrying amounts of EGP 598 million (31 December 2023: 580 million).
- A first ranking Commercial Establishment Mortgage over the tangible and intangible assets owned by the Group.
- Promissory Notes corresponding to the repayment dates and amounts.
- First ranking Share Pledge in favour of the Senior Secured Lenders or an agent acting on their behalf over the shares owned by the Group.
- iii. Interest accrued balance on the group's borrowing at 31 December 2024 is EGP 65,692,814 (31 December 2023: EGP 62,118,850).

# 25. Retirement Benefit Obligations

### **Defined benefit obligations**

The Group operates a defined benefit plan for the employees of the Group who are entitled upon their retirement, partial disability to an end of service a gratuity based on a defined benefit plan. The entitlement is based on the length of service and final remuneration package of the employee upon retirement. The plan is not subject to any regulatory restriction and is an unfunded plan. The defined benefit obligation is calculated using the projected unit method takes into consideration the principal actuarial assumptions as follows:

	2024	2023
Discount rate	20%	15%
Salary growth rate	9%	9%
Life table	49-52	49-52

The amounts recognized at the statement of financial position date are determined as follows:

	2024	2023
Present value of obligation	14,229,513	11,761,153
Liabilities as per the statement of financial position	14,229,513	11,761,153

#### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

# 25. Retirement Benefit Obligations (continued)

Movement in the liability recognized in the statement of financial position:

2024	2023
11,761,153	13,488,076
1,941,648	1,815,971
3,310,852	456,148
296,337	303,632
-	(2,044,202)
5,548,837	531,549
(3,080,477)	(2,258,472)
14,229,513	11,761,153
	1,941,648 3,310,852 296,337 - 5,548,837 (3,080,477)

2024

#### Sensitivity in Defined Benefit Obligation: -

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

	Change in assumption	Increase / Decrease in obligation %			
31 December 2024					
Discount rate	+/- 1%	Decrease by	8%	Increase by	8%
Salary increase	+/- 1%	Increase by	8%	Decrease by	8%
Mortality age	+/- 1%	Increase by	9%	Decrease by	9%
	Changa in				

	Change in assumption				
31 December 2023	<del>.</del>				
Discount rate	+/- 1%	Decrease by	6%	Increase by	6%
Salary increase	+/- 1%	Increase by	6%	Decrease by	6%
Mortality age	+/- 1%	Increase by	1%	Decrease by	1%

The above sensitivity analysis is based on a change in the assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

# 26. Equity

# 26(a). Issued and paid-up capital

The total number of authorized ordinary shares is 150 million shares (2023: 150 million shares) with a par value of EGP 1 per share (2023: 1 EGP per share). The issued and paid-up capital is 62,726,993 shares (2023: 62,627,993 shares) with a par value of EGP 1 per share (2023: 1 EGP per share). All issued shares are fully paid. Each share entitles the holder to participate in dividends, and to share in the proceeds of winding up in proportion to the number of and amounts paid on the shares held on a show of hands every holder of ordinary shares present at a meeting, in person or by proxy, is entitled to one vote.

According to the resolution of the Extra Ordinary General Assembly Meeting held on 7 November 2019, the shareholders decided to convert the shareholder loan amounting EGP 432,825,002 into share capital. The amount was initially reclassified within equity as "Payment under Capital Increase".

On 3 March 2022, an Extraordinary General Assembly Meeting of Shareholders approved an increase of the issued share capital from EGP 50,322,580 to EGP 62,627,993 with an amount of EGP 12,305,413 by issuing 12,305,413 new shares for subscription by the existing shareholders at a subscription price of EGP 38.67 per share amounting to a total amount of EGP 475,850,321. Accordingly, the amount under "Payment under Capital Increase" transferred to Share capital and Share Premium. In addition, a shareholder paid an additional amount of EGP 43,025,319 for the subscription of these new shares. The difference between the nominal value and fair value of the shares is recorded in as share premium reserves account. The increase was approved in the commercial register on 17 November 2022. In addition to the share premium reserve recognized previously to reach EGP 629,609,334.

#### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

# 26. Equity (continued)

# 26(a). Issued and paid-up capital (continued)

During 2024, MENA Glass Holdings Limited (ultimate parent) acquired all of MTM Packaging shares holding of 23,121,158 shares representing 36.92% and 1,997,039 shares from other shareholders representing 3.19% of the company' shares. The ultimate parent shares holding increased from 52.9% to 93.01%.

	31 December 2024			
Shareholders	No. of Shares	Value of shares	Shareholding %	
MENA Glass Holdings Limited*	58,250,357	58,250,357	93.01%

	62,627,993	62,627,993	100%	

# 26(b). Reserves

#### Other reserves

On 3 April 2014, the existing shareholders signed an agreement to increase the paid-up capital by approximately US \$28.7 million which was equivalent to EGP 205 million at the agreement date. Subsequently on 10 May 2015, the existing shareholders subscribed in the capital increase with total value of EGP 205 million equivalent to US \$26.5 million at the subscription date., the shareholders agreed to pay the remaining amount of the capital increase included in the above mentioned agreement amounting to US \$1.7 million (equivalent to EGP 13,129,007) which has been treated as capital contribution under other reserves in the statement of shareholders' equity. This balance is unsecured, bears no interest and it is not intended to be recalled by the shareholder.

# Legal reserve

In accordance with the Companies' Law No.159 for 1981, 5 % of the net profit for the year shall be transferred to the legal reserve account until it reaches 50% of paid-up capital. This reserve is not available for distribution to shareholders. No transfer of profit was made during the year 2024 and 2023 as the reserve has already reached 50% of the paid-up capital.

# 26(c). Retained Earnings

	2024	2023
Balance at beginning of the year	702,367,420	142,822,822
Net effect of applying EAS 13	(615,958,905)	-
Net profit for the year	1,070,430,925	598,042,403
Profit Share distribution to employees	(45,220,686)	(38,497,805)
Balance at end of the year	1,111,618,754	702,367,420

The profit share distribution to current employees was approved by the shareholders in the Annual General Meeting. The profit share distribution is in accordance with the Egyptian Companies Law.

#### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

#### 27. Commitments

#### a) Capital commitments

The Group has capital commitments as of 31 December 2024 of EGP 93,764,288 (2023: EGP 642,281) in respect of the capital expenditure.

# b) Operating lease commitments

The group leases warehouses under cancellable operating leases expiring where the group has a termination option to cancel the lease with short notice. The leases have varying terms, escalation clauses.

Commitments for minimum lease payments in relation to cancellable operating leases are payable as follows:

	2024	2023
Within one year	2,647,232	1,473,180

#### c) Contingencies

The Group has contingent liabilities as of 31 December 2024 of EGP 93,764,288 (2023: EGP 29,284,383).

#### 28. Related Parties

The Group entered into several transactions with companies and entities that are included within the definition of related parties, as stated in EAS 15, "Disclosure of related parties". The related parties comprise the Group's board of directors, their entities, companies under common control, and/ or joint management and control, and their partners and employees of senior management. Below is the statement that shows the nature and values of transaction with related parties during the year, and the balances due at the date of the consolidated financial statements.

The management decides the terms and conditions of the transactions and services provided by / to the related parties and any other expenses.

The following are the transactions with related parties:

## a. Due from related parties

	Nature and volume of transaction		2024	2023	
Nature of relationship	Reallocation	Foreign currency exchange	Payment on behalf		
- reactions in p	realiocation	extillarige	Denan		
Under common control	-	137,814	463,336	4,659,395	4,058,246

<sup>\*\*</sup> Creditors and other payables presented above excludes contract liabilities, social insurance authority and tax liabilities.

# 30. Summary of significant accounting policies

The principal accounting policies adopted in the preparation of these consolidated financial statements summarised below. They were applied consistently over the presented financial periods:

# a) Principles of consolidation and equity accounting

#### (1) Subsidiaries

Subsidiaries are entities (including structured entities) over which the group has control. The group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases.

Inter-Group transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group.

<sup>\*</sup> Debtors and other receivables presented above excludes prepaid expenses, advances to suppliers, employee profit share paid in advance and tax receivable.

#### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

# 30. Summary of significant accounting policies (continued)

# i. Acquisition method

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the:

- fair values of the assets transferred
- liabilities incurred to the former owners of the acquired business
- equity interests issued by the group
- fair value of any asset or liability resulting from a contingent consideration arrangement, and
- fair value of any pre-existing equity interest in the subsidiary.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. The Group recognises any non-controlling interest in the acquired entity on an acquisition-by-acquisition basis either at fair value or at the non-controlling interest's proportionate share of the acquired entity's net identifiable assets.

Acquisition-related costs are expensed as incurred.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value, with changes in fair value recognised in profit or loss.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is re-measured to fair value at the acquisition date. Any gains or losses arising from such remeasurement are recognised within statement of profit or loss.

# ii. Changes in ownership interests held within controlling interests

When the ratio of equity held within controlling interest's changes, the Group changes the amounts recorded for controlling and non-controlling shares to reflect such changes in the relevant shares in the subsidiary.

Group recognises directly within the equity of the parent Group any difference between the amount of changing the non-controlling shares and the fair value of the consideration paid or received.

# iii. <u>Disposal of subsidiaries</u>

When the Group ceases to have control, the Group recognises any retained investment in the Group that was a subsidiary at its fair value at the date when control is lost, with the resulting change recognised as profit or loss attributable to the owners of the parent Group.

# iv. Goodwill

Goodwill arises on the acquisition of subsidiaries and represents the excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identifiable net assets acquired, and contingent liabilities at the date of acquisition. If the consideration transferred, non-controlling interest in the acquiree and the date of acquisition fair value of the Group's equity previously held at the acquiree is less than the net amount of the identifiable acquired assets and liabilities assumed at the date of acquisition, the Group recognises the gain resulting from profit and loss at the date of acquisition and the gains are attributed to the Group.

Goodwill is not amortized but is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it may be impaired and is carried at cost less accumulated impairment losses.

The Group undertakes impairment reviews of goodwill acquired in a business combination annually or when evidence indicate impairment of the CGU by comparing its carrying amount including goodwill with its recoverable amount, which is the higher of fair value less costs sale and value in use. The Group recognises any impairment loss immediately in profit or loss and is not subsequently reversed.

For the purposes of impairment testing, goodwill acquired in a business combination is allocated to each of the Group's CGUs, or groups of CGUs, that is expected to benefit from the synergies of the combination. Each unit or group of units to

#### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

# 30. Summary of significant accounting policies (continued)

#### a) Principles of consolidation and equity accounting (continued)

which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes.

#### v. <u>Measurement period</u>

The measurement period is the period required for the Group to obtain the information needed for initial measurement of the items resulting from the acquisition of the subsidiary and does not exceed one year from the date of acquisition. In case the Group obtains new information during the measurement period relative to the acquisition, amendment is made retrospectively for the amounts recognised at the date of acquisition.

#### b) Foreign currency transactions

#### 1 Functional and presentation currency

Items included in the financial statements of the group's entities are measured using the currency of the primary economic environment in which the entity operates (the functional currency). The consolidated financial statements are presented in Egyptian Pounds, which is the functional and presentation currency of the Group.

#### 2 Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions, and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates, are generally recognised in profit or loss.

Foreign exchange gains and losses that relate to borrowings are presented in the statement of profit or loss, within finance costs. All other foreign exchange gains and losses are presented in the statement of profit or loss on a net basis within other gains/(losses).

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example, translation differences on non-monetary assets and liabilities such as equities held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss, and translation differences on non-monetary assets such as equities classified as at fair value through other comprehensive income are recognised in other comprehensive income.

# c) Fair value measurement

# Fair value of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level of inputs that is significant to the fair value measurement as a whole:

- Level 1: Inputs of quoted (unadjusted) market prices in active markets for identical assets or liabilities, which the Group can have access to at the date of measurement.
- Level 2: Inputs others than quoted prices included within level1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Unobservable inputs of the asset or the liability.

#### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

# 30. Summary of significant accounting policies (continued)

# d) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker which has been identified as the chief executive officer. The board of Middle East Glass manufacturing group has appointed a chief operating decision-maker who assesses the financial performance and position of the group and makes strategic decisions, and who determines that the Group's activities are organised into one segment which is wholly related to the manufacturing and sale of glass containers

# e) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable for goods sold within the Group's normal course of business. Amounts disclosed as revenue are net of returns, trade allowances, rebates and amounts collected on behalf of third parties

The Group recognises revenue from contracts with customers based on a five-step model as set out in EAS No. (48):

#### Step (1) – Identify the contract(s) with a customer:

A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

# Step (2) – Identify the performance obligations in the contract:

A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer. The Group accounts for all distinct goods or services as a separate performance obligation.

#### Step (3) - Determine the transaction price:

The transaction price is the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

# Step (4) - Allocate the transaction price to the performance obligations in the contract:

For a contract that has more than one performance obligation, the Group will allocate the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Group expects to be entitled in exchange for satisfying each performance obligation.

Step (5) - Recognise revenue when (or as) the entity satisfies a performance obligation at a point in time or over time.

# Revenue recognized at a point in time

Revenue is income arising in the course of the Group's ordinary activities. Revenue is recognised in the amount of transaction price. Transaction price is the amount of consideration to which the Group expects to be entitled in exchange for transferring control over promised goods or services to a customer, excluding the amounts collected on behalf of third parties. Revenue is recognised net of returns.

Revenue for sale of goods at a point in time is recognized when the control of the goods is transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods. The control of goods is generally transferred upon delivery of the products.

# Revenue recognized over time

For products manufactured and supplied that are typically customized, according to binding contractual arrangements, without any option for alternative use, where the Group has an enforceable right to payment for the performance completed to date, the revenue for the goods and delivery concerned are recognized over time using the output method together with presentation under contract assets.

#### Contract assets

A contract asset is initially recognised for revenue earned from manufacturing glass containers because the receipt of consideration is conditional on successful completion and delivery of the products. Upon invoicing to the customer, the amount recognised as contract assets is reclassified to trade receivables. Contract assets are subject to impairment assessment. Refer to accounting policies on impairment of financial assets in section (31-l-iii)

#### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

# 30. Summary of significant accounting policies (continued)

#### e) Revenue recognition (continued)

#### Trade receivables

A receivable is recognised if an amount of consideration that is unconditional is due from the customer.

#### **Contract liabilities**

A contract liability is recognised if a payment is received, or a payment is due (whichever is earlier) from a customer before the Group transfers the related goods or services. Contract liabilities are recognised as revenue when the Group performs under the contract.

#### f) Income tax

The income tax expense represents the sum of the current income and deferred tax.

#### Current tax

The current income tax is based on the taxable profit for the year. Taxable profit differs from net profit as reported in profit or loss statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The current income tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

A provision is recognised for those matters for which the tax determination is uncertain, but it is considered probable that there will be a future outflow of funds to the tax authority. The provisions are measured at the best estimate of the amount expected to become payable. The assessment is based on the judgement of tax professionals within the Group supported by previous experience in respect of such activities and in certain cases based on specialist independent tax advice.

#### Deferred tax

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using the liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised.

Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, a deferred tax liability is not recognised if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary differences will not be reversed in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits only of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled, or the asset is realised based on tax laws and rates that have been enacted or substantively enacted at the reporting date.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

#### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

# 30. Summary of significant accounting policies (continued)

# f) Income tax (continued)

#### Current income and deferred tax for the year

Current and deferred tax are recognised in the consolidated statement of profit or loss, except when they relate to items that are recognised in the consolidated statement of other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

#### g) Earnings per share

#### a. Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Group, excluding any costs of servicing equity other than ordinary shares less dividends paid to employees.
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year and excluding treasury shares.

# b. Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after-income tax effect of interest and other financing costs associated with dilutive potential ordinary shares,
   and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

#### h) Property, plant and equipment

The Group applies the cost model at measurement of Property, plant and equipment. All Property, plant and equipment are stated at historical cost less depreciation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items, when it's available to use.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

The straight-line method is used to distribute the depreciation of Property, plant and equipment on a regular basis over the estimated useful life, except for lands where the estimated useful life is unlimited and Moulds which are depreciated using the Units of production method.

The following are the estimated useful lives for each type of a group of asset groups:

Buildings 16-50 years Machinery and equipment 5-10 years

Moulds Units of production method

Vehicles & transportation 5 years
Furniture and office equipment 4-10 years
Computers & computer systems 3 - 5 years

The Group reviews the residual value of Property, plant and equipment and estimated useful lives of Property, plant and equipment at the end of each financial year and adjusted when expectations differ from previous estimates.

The carrying amount of the property, plant and equipment is reduced to the recoverable amount, if the recoverable amount of an asset is less than its carrying amount. This reduction is considered as a loss resulting from impairment (Note 31-I-iii).

Gains or losses on the disposal of an item of Property, plant and equipment from the books are determined based on the difference between the net proceeds from the disposal of the item and the book value of the item, and the gain or loss resulting from the disposal of Property, plant and equipment is included in the statement of profit and loss.

#### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### 30. Summary of significant accounting policies (continued)

### h) Property, plant and equipment (continued)

Projects under construction are stated at cost less realised impairment losses. Cost includes all expenses associated with the acquisition of the asset and make it usable. When the assets are ready for its intended use, it is transferred from project under construction to the appropriate category under property, plant and equipment and depreciated in accordance with group policy.

### i) Intangible assets

### i. <u>Computer software</u>

Separately acquired software licences are shown at cost less the accumulated amortization and the accumulated impairment losses. The costs represent the acquisition cost in obtaining this software. The Group charges the amortization amount of the software licences consistently over their estimated useful lives of five years using the straight-line method.

The costs of the acquisition of computer software licenses that are not considered an integral part of computers are recognized as intangible assets on the basis of costs related to prepare the asset for use in the purpose for which it was acquired.

#### ii. Customers relationship

Separately acquired is customer relationship shown at historical cost. customer relationship acquired in a business combination are recognised at fair value at the acquisition date. They have a finite useful life and are subsequently carried at cost less accumulated amortisation and impairment losses.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each annual reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (Note 30-j)

# iii. <u>Goodwill</u>

Goodwill is measured as described in (Note 14-ii). Goodwill on acquisitions of subsidiaries is included in intangible assets. Goodwill is not amortised, but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose. The units or groups of units are identified at the lowest level at which goodwill is monitored for internal management purposes.

### j) Impairment of non-financial assets

Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired.

Other non-financial assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An impairment loss is recognised in consolidated statement of profit or loss for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of sales and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are generating separately cash inflows (cash-generating units).

### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### 30. Summary of significant accounting policies (Continued)

### j) Impairment of non-financial assets (continued)

Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period by the Group. Impairment losses recognised in prior years are reversed when there is an indication that such losses no longer exist or have decreased. Reversal of loss of impairment should not exceed the carrying amount that would have been determined (net of depreciation). Such reversal is recognised in the statement of profit or loss.

### k) Inventory

Inventories are measured at the lower of cost and net realisable value. Cost is determined using weighted average method. The cost comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity, that are incurred by the

Group in bringing the inventory to their present location and condition but excludes borrowing costs. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and any other costs necessary to complete the sale. The amount of any write-down of inventory to net realisable value below its book value and all losses of inventories shall be recognised as an expense in the period when the write-down or loss occurs.

### I) Financial assets under EAS 47

### i. Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through OCI, or through profit or loss), and
- Those to be measured at amortized cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income (FVOCI).

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

## Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on trade date, being the date on which the group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the group has transferred substantially all the risks and rewards of ownership.

### ii. Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss statement.

### Debt instruments - treasury bills

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. According to the group business model the group subsequently measures debt instruments at amortised cost for Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest. Interest income from these financial assets is included in interest income using the effective interest rate method. Any gain or loss arising on derecognition is recognized directly in profit or loss and presented in interest income/(costs), together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the statement of profit or loss.

### Debt instruments - trade receivables

Trade receivables are recognised initially at the amount of consideration that is unconditional, unless they contain significant financing components when they are recognised at fair value. They are subsequently measured at amortised cost using the effective interest method, less loss allowance.

### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

## 30. Summary of significant accounting policies (Continued)

### I) Financial assets under EAS 47 (continued)

### ii. Measurement (continued)

### Cash and cash equivalents

For the purpose of presentation in the statement of cash flow cash and cash equivalents includes cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdraft that are repayable on demand which is characterized by fluctuating bank balance from a positive balance to an overdraft balance, bank overdraft are shown in current liabilities in the consolidated statement of financial position.

#### iii. Impairment

The Group assesses on a forward-looking basis the expected credit loss associated with its debt instruments carried at amortized cost and FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

The Group applies the EAS 47 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables and contract assets. (Refer to Note 17 and Note 32-1-b for more details)

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, and all the efforts for collection of the receivables are exhausted. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in consolidated statement of profit or loss.

A significant increase in credit risk is presumed if a debtor is more than 90 days past due in making a contractual payment. A default on a financial asset is when the counterparty fails to make contractual payments within 90 days of when they fall due.

# m) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the consolidated statement of profit or loss over the period of the borrowings using the effective interest method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs.

To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the consolidated statement of financial position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any noncash assets transferred or liabilities assumed, is recognised in the consolidated statement of profit or loss as other income or finance costs.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer the settlement of the liability for at least 12 months after the date of the consolidated financial statements.

# n) Borrowing cost

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

When funds are borrowed for the purpose of acquiring a qualifying asset to bear the cost of borrowing, the Group determines the amount of borrowing costs that are capitalised on this asset, which is the actual borrowing costs incurred by the entity during the period because of the borrowing transaction less any revenue realised from the temporary investment of borrowed funds.

The Group recognises other borrowing costs as expenses in the period the Group incurs such costs.

#### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### 30. Summary of significant accounting policies (Continued)

#### o) Employee benefits

The Group operates various employees' benefits schemes, including both defined benefit and defined contribution pension plans.

### (1) Pension obligations

The Group has two types of pension schemes.

#### Defined contribution plans

The unfunded defined contribution plan is a pension plans under which the Group pays fixed contributions to the General Authority for Social Insurance or to private insurance providers on mandatory basis. The Group has no further liabilities once its obligations are paid. The regular contributions are recognised as periodic cost for the year in which they are due and as such are included in staff costs.

#### Defined benefit plans

A defined benefit plan is a post-employment plan that is not a defined contribution plan.

The Group operates a defined benefit plan operates for the employees of the Group. The employees of the Group are entitled upon their retirement, partial disability or to an end of service a gratuity based on a defined benefit plan. The entitlement is based on the length of service and final remuneration package of the employee upon retirement. The plan is not subject to any regulatory restriction and is an unfunded plan.

The net defined benefit obligation recognised in the consolidated statement of financial position is the present value of the defined benefit obligation at the end of the reporting period. The annual defined benefits obligations are determined annually by independent actuary using the projected unit credit method. The present value of the defined benefit obligations is determined by discounting the estimated future cash outflows using discount rate at the end of the financial reporting period on market returns of government bonds that are denominated in the currency and the estimated period for the defined benefit obligations.

The Group recognises the current service cost of the defined benefit obligation in the consolidated statement of profit or loss, except where included in the cost of an asset that reflects the increase in the defined benefit obligations relating to services performed to the Group during the current year or when changes or curtailments are made to the plan.

The Group recognises the cost of past service as an expense when benefit changes or is curtailed, and when the Group recognises the restructuring costs, whichever is earlier in the consolidated statement of profit or loss.

Net interest is calculated on the net defined benefit obligation by multiplying the net defined benefit obligation by a discount rate as determined at the beginning of the annual financial period. These costs are included within finance cost in the consolidated statement of profit or loss.

Actuarial gains and losses, which are the changes in the present value of the defined benefit obligation that arises from experience adjustments and changes in actuarial assumptions, are recognised in the consolidated statement of other comprehensive income in the period in which they arise.

# (2) Termination benefits

Termination benefits are payable when employment is terminated by the Group before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Group recognises termination benefits at the earlier of the following dates: (a) when the Group can no longer withdraw the offer of those benefits; and (b) when the entity recognises costs for a restructuring that is within the scope of EAS 28 and involves the payment of termination benefits. In the case of an offer made to encourage voluntary redundancy, the termination costs and benefits obligation are initially measured.

The Group measures and recognises the subsequent changes in accordance to the nature of the benefits based on the number of employees expected to accept the offer of benefits. Where it is not expected to settle the benefits falling due before 12 months after the end of the reporting period, the benefits are discounted to their present value.

### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

## 30. Summary of significant accounting policies (Continued)

### o) Employee benefits (continued)

### (3) Employees' share in legally defined profits

The Group recognises expected cash dividends for the employees' share in accordance with the companies' articles of association, to be included as part of dividends in equity, and as liabilities when the ordinary general assembly meeting of the shareholders of the Group approves the proposed dividends. The Group does not record any liabilities in the employees' share of undistributed dividends.

### p) Provisions

Provisions are recognised when the Group has a present (legal or constructive) obligation as a result of past events; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

The Group recognises the commitments required for restructuring and not related to the Group's effective activities within the costs of the provision of restructure.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Where the impact of the time value of money is significant, the amount of the provision is the present value of expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense in the statement of profit or loss.

### q) Offsetting financial asset and liability

Financial assets and liabilities are offset, and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts, and the Group has an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default of the counterparty and should reflect the Group's normal practices and requirements of financial requirements and other conditions related to the considerations of the risk and timing of the Group's cash flows.

### r) Interest expense and income

Interest expenses comprise interest expense on borrowings that are recognised in consolidated statement of profit or loss and other comprehensive income. Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in consolidated statement of profit or loss and other comprehensive income using the effective interest method.

Interest income is recognised on a time-proportionate basis using the effective interest method. When a receivable balance resulting from the recognition of interest is impaired, the carrying amount is reduced to the present value of the future cash flows discounted at the original effective interest rate.

### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### 30. Summary of significant accounting policies (Continued)

### s) Capital

#### Issued and paid-up capital and share premium

Ordinary shares are classified within equity. Share premiums, if any, are added to legal reserve to the extent of half of the issued capital, and the remaining balance of the premium is transferred to a share premium reserve, after deducting the shares issue expenses (net of any tax benefit) from the amount of share premium.

Where any Group repurchases the Group's equity instruments (treasury shares), the consideration paid or received in exchange for those instruments, including any directly attributable incremental transaction costs (net of income tax) is deducted from the equity attributable to the owners of Middle East Glass as treasury shares until the shares are cancelled or reissued. Where such ordinary shares are subsequently reissued, any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the owners of Middle East Glass. classify within the equity capital.

#### t) Financial liabilities

All financial liabilities are recognized at the time when the Group becomes a party to the contractual provisions of the instrument. Financial liabilities are recognized initially at fair value less any directly attributable transaction cost. Subsequent to initial recognition, these are measured at amortised cost using the effective interest rate method.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the recognition of a new liability, and the difference in respective carrying amounts is recognized in profit or loss.

#### Trade payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trades payables are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business, if longer). If not, they are presented as non-current liabilities.

Trade payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

# u) Government incentives

The government of Egypt operates an export Subsidies program managed by the Export Development Fund. The scheme was established under law 155 of 2002 to create incentives for Egyptian companies to grow exports. The Group operates in a qualifying sector and the subsidy represents a percentage of the export value depending on a set of variables including the percentage of local components, location of the factory, export destination and amongst others.

The Subsidies on export sales is recognized when there is a reasonable assurance that it will be received, and the group will comply with all attached conditions. The subsidy is recognised under other operating income in the consolidated statement of profit or loss on a gross basis.

Export Subsidies are recognized immediately as the Group already recognize it since the government provide this incentive to compensate the Group for export sales already incurred.

# v) Dividends

Dividends declared and not paid are recognised as liabilities in the consolidated financial statements for the amount of any dividend declared, being appropriately authorised by the Group's General Assembly of Shareholders and no longer at the discretion of the Group, on or before the end of the reporting period.

### w) Comparative Figures

Where necessary, comparative figures are reclassified to conform to presentation in the current year.

#### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

## 31. Critical accounting estimates and judgments

### (1) Critical accounting estimates and assumptions

The preparation of these financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates. The significant judgements made in applying the Group's accounting policies were applied consistently across the annual periods. The significant judgements and key sources of estimation uncertainty that have a significant effect on the amounts recognised in these financial statements are outlined below.

### a. Property, plant and equipment – useful life

Property, plant and equipment are a substantial portion of the total assets of the Group, depreciation expense that is related to this property, plant and equipment is a substantial portion of annual operating expenses.

The useful life of property, plant and equipment which were based on management estimation and assumptions has a significant impact on assets value. Each item of the property, plant and equipment has a useful life estimation based on the past experience of corresponding assets, expected period in which economic benefits will flow to the Group during the operation of the asset.

The useful life of property, plant and equipment estimates, and assumptions are reviewed periodically to assess if there is any adjustments or changes related to useful life or residual values if there is any adjustments will be implemented on future years.

### b. Recoverable amount of goodwill

These calculations require the use of estimates as disclosed in Note (14) with these calculations require the use of certain estimates and assumptions. For more details on the estimates used and the sensitivity on these estimates, refer to Note (14).

# c. Expected credit losses for financial assets

Loss provisions for financial assets are based on assumptions about the risk of default and expected loss rates. The Group uses a range of significant judgments in making these assumptions and selecting inputs in the impairment calculation, based on the Group's history and current market conditions as well as future estimates at the end of each year. The expected loss rates are based on the historical credit losses. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the due amounts. The Group has determined GDP and therefore adjusts historical loss rates based on expected changes in these factors.

# d. Recognition of current and deferred tax assets and liabilities and their measurement

Income taxes, whether current or deferred, are determined by each subsidiary of the Group in accordance with the tax law requirements of each country in which the subsidiary of the Group operates.

The Group's profit is subject to income tax, which requires using of significant estimates to determine the total income tax liability. As determining the final tax liability for some transactions could be difficult during the year, the Group record current tax liability according to its' best estimate about the taxable treatment of that transactions and the possibility of incurring of additional tax charges that may result from the tax inspection. And when a difference arising between the final tax liability and what is being recorded, such difference is recorded as income tax expense and current tax liability in the current year and to be considered as change in accounting estimates.

For recognition of deferred tax assets, management uses assumptions about the availability of sufficient taxable profits allowing use of recognized tax assets in the future. Management also uses assumptions related to determination of the applicable tax rate at the financial statements date at which deferred tax assets and liabilities are expected to be settled in the future.

This process requires the use of multiple and complex estimates in estimating and determining the taxable pool and temporary deductible taxable differences resulting from the difference between the accounting basis and the tax basis for some assets and liabilities. In addition to estimating the extent to use deferred tax assets arising from carry forward tax losses, in the light of making estimates of future taxable profits and future plans for each of the activities of the subsidiaries of the Group.

### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

### 31. Critical accounting estimates and judgments (continued)

### (2) Critical judgment in applying the accounting policies

#### Determining the lease term

Termination options are included in a number of property leases across the group. These terms are used to maximize operational flexibility in terms of managing contracts. The majority of termination options held are exercisable only by the group and not by the respective lessor.

In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise a termination option. Years after termination options are only included in the lease term if the lessee is reasonably certain not to be terminated.

Payments associated with short-term leases of warehouses and all leases of low-value assets are recognized on a straight-line basis as an expense in profit or loss.

# 32. Financial risk management

### (1) Financial risk factors

The Group's activities expose it to a variety of financial risks including the effects of changes in market risk (including foreign exchange risk, price risk and cash flow interest rate risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance. Risk management is carried out by the central treasury department (group treasury) under policies approved by the Board of Directors.

This note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk, and the Group's management of capital. Furthermore, quantitative disclosures are included throughout these consolidated financial statements.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

## 32. Financial risk management (continued)

### (1) Financial risk factors (continued)

### (a) Market risk

# i. Foreign currency exchange rates risk

Foreign exchange rates risks are the risks of fluctuations in the fair value of future cash flows of a financial instrument due to changes in foreign currency exchange rates. Foreign exchange risk arises from future commercial transactions or recognized assets and liabilities that are denominated in a currency that is not the entity's functional currency.

The Group aims to reduce the arising foreign currency exchange rate risk by maintaining sufficient foreign currency balances that is used to meet the foreign currency liquidity needs. Further, the Group manages its imports by dealing with local banks that use official rates and the rest from its exports in US Dollars.

During the year, the following foreign-exchange related amounts were recognised in profit or loss:

	2024	2023
Amounts recognised in profit or loss		
Net foreign exchange loss	114,806,807	417,064,648
	114,806,807	417,064,648

The following table shows the foreign currencies position denominated in Egyptian Pounds at the date of the statement of financial position as of 31 December:

manda position as of or procession				
	2024			
	Assets	<u>Liabilities</u>	Net	
US Dollars	1,398,617,378	(3,202,052,820)	(1,803,435,442)	
Euros	11,800,192	(71,832,657)	(60,032,465)	
GBP	90,060	(1,441,321)	(1,351,261)	
		2023		
	Assets	Liabilities	Net	
US Dollars	852,021,986	(2,387,825,294)	(1,535,803,308)	
Euros	13,110,243	(36,997,976)	(23,887,732)	
GBP	1,749	(883,363)	(881,614)	
AED	36	(185,638)	(185,602)	

The Group continuously monitors its exposure to the foreign exchange rate risks by performing sensitivity analysis on the fluctuation of exchange rates for these foreign currency balances. The following analysis shows the calculation of the effect of reasonable and possible changes in foreign currencies against the functional currency of the Group while keeping all other variables constant, on the consolidated statement of profit or loss:

### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

# 32. Financial risk management (continued)

- (1) Financial risk factors (continued)
- (a) Market risk (continued)
- i. foreign currency exchange rates risk (continued)

	2024
US Dollars 20%	(360,687,088)
Euros 20%	(12,006,493)
GBP 20%	(270,252)
	2023
US Dollars 50%	(767,901,654)
Euros 50%	(11,943,866)
GBP 50%	(440,807)

### ii. Price risk

Price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices, whether those changes are caused by factors specific to the individual instrument or its issuer or factors affecting all the instruments traded in the market. The Group has no investments in quoted equity securities, so it is not exposed to the price risk due to changes in the prices.

# iii. Cash flow and fair value exchange interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Group is exposed to interest rate risk on its variable interest-bearing assets and liabilities (Short term credit facilities, and term loans). The risk is managed by the Group by maintaining an appropriate mix between borrowings and bank facilities with floating rates.

Borrowings issued at variable rates expose the Group to cash flow interest rate risk which is partially offset by short term treasury bills which are renewed with the applicable interest rate at the time of renewal.

The following table demonstrates the sensitivity of the consolidated statement of profit or loss to reasonably possible changes in interest rates, with all other variables held constant.

The sensitivity of the consolidated statement of comprehensive income is the effect of the assumed changes in interest rates on the Group's profit for a year, based on bank borrowings as of 31 December.

	Increase / Decrease  **	Effect on profit for the year EGP	
<b>31 December 2024</b> EGP	-/+ 1%	33,043,786	
<b>31 December 2023</b> EGP	-/+1 %	26,283,835	

### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

## 32. Financial risk management (continued)

### (1) Financial risk factors (continued)

#### (b) Credit risk

Credit risk is the risk of financial loss if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Credit risk arises from cash and cash equivalents, deposits with banks and financial institutions, trade and notes receivables, due from related parties, contract assts and debtors and other receivables. The Group's credit risk is managed as a whole, except for the credit risk related to the customers' account balances, as each of the Group's companies manages and analyses the credit risk of their own customers.

For the new customers, their credit risk is analysed before standard payment and delivery terms and conditions are agreed.

The group is exposed to credit risk on the following financial instruments:

				Impairment
Category	Class	2024	2023	model
	Treasury bills	ı	226,845,187	General
Financial assets at amortised cost	Trade and notes receivables	1,031,852,894	562,852,018	Simplified
	Cash and cash equivalent	889,138,780	800,764,700	General
	Due from related parties	4,659,395	4,171,547	Simplified
	Contract assets	407,195,504	230,189,920	Simplified
	Debtors and other receivables*	408,438,433	283,428,170	General

<sup>\*</sup> Debtors and other receivables presented above excludes prepaid expenses, advances to suppliers, employee profit share paid in advance and tax receivable.

The maximum exposure to credit risk at financial position date is the carrying amount of each receivable.

The board receives regular reporting from the credit department who manage the performance of the trade receivables, contact assets.

The credit department has set out policies and procedures for managing credit risk on trade receivables, contract assets and:

- The Group structures the levels of credit risk it undertakes by placing limits on the amount of credit risk accepted in relation to a customer. Limits on the level of credit risk are approved regularly by management. Such limits are monitored on a revolving basis and are subject to an annual, or more frequent, review.
- The Group has enforceable contractual agreements signed with its major customers include the product specifications such as the color, size, and shape, quantities, unit price and payment terms.
- On granting of credit, an assessment is performed of the credit worthiness of the debtor and the ability to pay.
- Where appropriate, guarantees and collateral is held against such receivables.
- After granting the credit, the credit department, on a monthly basis, reviews the aging analysis and follows up on all outstanding payments.

Credit limits are set for each customer based on internal and external credit limits in accordance with limits set by the board. The credit limits are regularly reviewed for each individual customer.

For banks and financial institutions, the Group is dealing with the banks with good reputation and subject to rules of the Central Bank of Egypt. For Treasury bills the identified risk of default on these balances is considered to be low by the management.

While debtors and other receivables and due from related parties are subject to impairment requirement of EAS 47, the identified impairment loss was immaterial.

The group does not hold any collateral against financial assets.

The Group applied the Prime Minister's Decree No. (4575) of 2023 that was issued amending some provisions of the Egyptian Accounting standards, by exempting debt instruments issued by the Egyptian government in local currency at banks operating in Egypt with a maturity of one month or less from recognizing and measuring the expected credit loss starting from the date of the financial position.

### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

## 32. Financial risk management (continued)

### (1) Financial risk factors (continued)

### (b) Credit risk (continued)

Management believes that customers' impairment provisions are adequate. (Note 17) related to the financial assets provides more information on the credit risk.

#### Transactions with major customers:

As of 31 December 2024, the Group faced a concentration of credit risk with three customers (2023: three customers) accounting for 30% % (2023: 43%) of the trade receivables at that date.

The Group does not face any significant concentration risks in relation to the other classes of financial assets.

Trade receivables and contract assets are written off when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery included, amongst others, the failure of a debtor to engage in a repayment plan with the group, and a failure to make contractual payment for a period of greater than 360 days past due.

### (c) Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due, due to shortage of funding. Group's exposure to liquidity risk results primarily from the mismatching in the maturities of the assets and liabilities.

Management makes cash flow projections on periodic basis, and takes the necessary actions to negotiate with suppliers, follow-up the collections from customers and manage inventory balances in order to ensure sufficient cash is maintained to discharge the Group's liabilities. The Group's management monitors liquidity requirements to ensure it has sufficient cash and cash equivalents to meet operational needs while maintaining sufficient cash cover to meet the cash outflows to settle the obligations of loans and borrowings to be able to maintain financial terms, guarantees and covenants at all times.

The Group limits liquidity risk by maintaining sufficient bank facilities and reserves, by monitoring cash forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. Balances due to suppliers are normally settled with an average of 120 days from the date of purchase.

The table below summarises the maturities of the Group's undiscounted financial liabilities at 31 December, based on contractual payment dates and current market interest rates.

	Less than 6 month	Between 6 month & 1 year	Between 1 & 2 years	Between 2 & 5 years
31 December 2024				
Trade and notes payable	717,261,118	-	19,695,218	-
Creditors and other payables *	534,495,759	-	-	-
Short term credit facilities	762,378,456	-	-	-
Loans and borrowings	423,666,671	423,666,670	847,333,330	847,333,444

Trade and notes payable	514,590,195	-	41,099,153	-
Creditors and other payables *	407,587,802	-	-	-
Short term credit facilities	569,050,145	-	-	-
Loans and borrowings	257,416,667	257,416,667	514,833,333	1,029,666,740
Future Interest	163,169,693	87,577,397	134,734,458	107,787,568
Total	1,911,814,502	344,994,064	690,666,944	1,137,454,308

The unused credit facility at 31 December 2024 amounts to EGP 458,701,000 (31 December 2023: EGP 288,493,000).

The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

<sup>\*</sup> Creditors and other payables presented above excludes contract liabilities, social insurance authority and tax liabilities.

#### Notes to the consolidated financial statements - For the year ended 31 December 2024

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

## 32. Financial risk management (continued)

### (2) Capital risk management

The Group's objectives when managing capital is to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders using the financial statements. The Group also aims to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividend paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce the Group's debts.

The Group monitors capital structure based on its gearing ratio. Gearing ratio is calculated as the ratio of net debt divided by total capital. Net debt comprises total borrowings and short-term credit facilities less Cash and cash equivalents less short-term investments and total capital comprises the equity plus net debt.

The gearing ratios at 31 December are as follows:

	2024	2023
Loans	2,542,000,115	2,059,333,407
Short term credit facilities	762,378,456	569,050,145
Less: Cash and bank balances	(889,138,780)	(800,764,700)
Less: Financial assets at amortised cost	-	(226,845,187)
Net debt	2,415,239,791	1,600,773,665
Total equity	1,848,299,084	1,439,047,750
Total capital	4,263,538,875	3,039,821,415
Gearing ratio	57%	53%

The main reason for the increase in the gearing ratio on 31 December 2024 comparing to 31 December 2023 is due to increase in loans due to the Egyptian pound devaluation.

### **Debt covenants**

The group is required to comply with the following financial covenants under the terms of the medium-term loans' facilities:

- Current ratio should not fall below 1:1.
- Debt service ratio should not fall below 1.2 throughout the life of the loan except for the financial year ended 2024 which should not fall below 1.1.
- Total net debt to EBITDA ratio should not exceed 3.1 for the financial year ended 2023 and 3.0 for the next years.

The group was in compliance with all financial covenants at 31 December 2024 and 31 December 2023.

## (3) Fair value estimation

As at 31 December 2024 and 2023, the fair values of the Group's financial instruments are estimated to approximate their carrying values since the financial instruments are short term in nature, and are expected to be realized at their current carrying values within twelve months from the date of the consolidated statement of financial position
