## *Limited review report*

### *On the interim condensed consolidated financial statements*

To the Board of Directors of Middle East Glass Manufacturing Company (MEG) (S.A.E.)

#### *Introduction*

We have conducted a limited review for the accompanying interim condensed consolidated statement of financial position of Middle East Glass Manufacturing Company (MEG) (S.A.E.) (the "Company") and its subsidiaries (together the "Group") as of 30 September 2025 and the related interim condensed consolidated statements of profit or loss, comprehensive income, changes in equity and cash flows for the nine-month period then ended. Management is responsible for the preparation and fair presentation of these interim condensed consolidated financial statements in accordance with Egyptian Accounting Standard 30 "Interim financial statements", and our responsibility is limited to expressing a conclusion on these interim condensed consolidated financial statements based on our limited review.

#### *Scope of limited review*

We have conducted our limited review in accordance with the Egyptian Standard on Review Engagements No. 2410 "Review of Interim Financial Statements Performed by the Independent Auditor of the Entity". A limited review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other limited review procedures. A limited review is substantially less in scope than an audit conducted in accordance with Egyptian Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on these interim condensed consolidated financial statements.

#### *Conclusion*

In light of our limited review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with Egyptian Accounting Standard 30 "Interim financial statements".

### NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE NINE-MONTH PERIOD ENDED 30 SEPTEMBER 2025

(IN THE NOTES ALL AMOUNTS ARE SHOWN IN EGYPTIAN POUNDS UNLESS OTHERWISE STATED)

#### **2. Summary of significant accounting policies**

The principal accounting policies adopted in the preparation of these interim condensed consolidated financial statements summarized below. They were applied consistently over the presented financial periods unless otherwise stated:

##### **2.1 Basis of preparation of the interim condensed consolidated financial statements**

This interim condensed consolidated financial statements for the nine-months reporting period ended 30 September 2025 has been prepared in accordance with Egyptian Accounting Standard (30) "Interim Financial Statements".

This interim condensed consolidated financial statement does not include all the notes of the type normally included in an annual financial statement. Accordingly, this interim condensed consolidated financial statement is to be read in conjunction with the annual financial statement for the year ended 31 December 2024 and any public announcements made by the Company during the interim reporting period.

##### **2.2 Effect of applying Egyptian Accounting Standard No. (13)**

On March 3, 2024, the prime minister has issued decree No. 636, amending the Egyptian Accounting Standard No.13 (EAS 13) "the effect of changes in foreign currency exchange rates", paragraph 57A, effective from 1 January 2024.

The Group has applied the amendment in paragraph EAS13.57A and made an assessment to determine whether there is lack of exchangeability of foreign currencies against the Egyptian Pound. Below is summary of the outcome of that assessment.

##### **A) Lack of Exchangeability assessment**

The Group assessed that there is no lack of exchangeability for assets denominated in foreign currencies as at 1 January 2024, the date of application of EAS 13 revised. This assessment was made on the premise that assets denominated in foreign currencies may be exchanged at the bank at any point of time without any difficulty.

The Group management is confident that their forecasted cash flows will prevent a negative foreign currency position. The management believe that the Group's assets will sufficiently cover liabilities in foreign currency from exporting operations and the foreign currency generated from these activities. Furthermore, the Group has not experienced any default incidents related to foreign currency liabilities in the past when they came due.

The Group also assessed that the lack of exchangeability for liabilities denominated in foreign currencies, and believes that the Group's expected future cash inflows in foreign currency would be sufficient to settle the Group's liabilities denominated in foreign currencies, however as at 1 January 2024, total liabilities denominated in foreign currencies exceeded the available monetary assets in foreign currencies, and according to the revised standard EAS 13 "Effects of changes in foreign exchange rates" these assets and liabilities have been revaluated at 1 January 2024 using the first rate that was available to the Group (USD 1=EGP 47.22, GBP 1 = 59.61 and EUR 1= EGP 50.97) to source foreign currency subsequent to the application date of the revised standard during March 2024, as summarized below.

3. Segment information

The Group's activities are organised into one segment which is wholly related to the manufacturing and sale of glass containers. This is in accordance with the presentations to the Board of Directors. Therefore, entity wide information required under EAS 41 "operating segments" are already included in the financial statements. No other information required to be disclosed.

#### 10. Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due, due to a shortage of funding. The Group's exposure to liquidity risk results primarily from the mismatching of the maturities of its assets and liabilities.

Management makes cash flow projections on periodic basis, and take the necessary actions to negotiate with suppliers, follow-up the collections from customers and manage inventory balances in order to ensure sufficient cash is maintained to discharge the Group's liabilities. The Group's management monitors liquidity requirements to ensure it has sufficient cash and cash equivalents to meet operational needs while maintaining sufficient cash cover to meet the cash outflows to settle the obligations of loans and borrowings to be able to maintain financial terms, guarantees and covenants at all times.

The Group limits liquidity risk by maintaining sufficient bank facilities and reserves, by monitoring cash forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. Balances due to suppliers are normally settled with an average of 120 days from the date of purchase.

The table below summarises the maturities of the Group's undiscounted financial liabilities at 30 September 2025 and 31 December 2024, based on contractual payment dates and current market interest rates.
